

Policy and Practices

ENVIRONMENTAL POLICY

Canam Group Inc. and its subsidiaries (“Canam”) are committed to providing quality products and services in a manner that ensures a safe and healthy workplace for our employees and minimizes our potential impact on the environment. Canam’s dedication to sound environmental stewardship will benefit the environment, our company, our employees and our customers.

Canam strives to:

- operate in compliance with applicable environmental regulations;
- use pollution prevention and environmental best practices in our operations;
- monitor all facilities for opportunities to prevent or eliminate pollution;
- integrate the consideration of environmental concerns and impacts into our decision-making and activities in order to comply with the current standards, particularly with regard to GHG emissions;
- reduce waste through reuse and recycling and by purchasing recycled, recyclable or refurbished products and materials where these alternatives are available, economical and suitable;
- promote efficient use of materials and resources throughout our facilities including water, energy consumables (electricity, fossil fuels), raw materials and other resources;
- avoid unnecessary use of hazardous materials and products, seek substitutions when feasible, and take all reasonable steps to protect human health and the environment when such materials must be used, stored and disposed of;
- continue to research and develop products and services that promote energy savings and/or the recycling of existing materials;
- communicate our environmental commitment to customers and suppliers;
- communicate the expectation of the use of sound environmental practices and standards from all suppliers and contractors;
- continually improve our environmental performance and commitment to the above stated principals in light of our current and planned future activities through periodic review;
- promptly correct any practice or condition not in compliance with this policy.
